

FOCUS L900

Designed by Ronni Gol

DESCRIPTION

The FOCUS L900 family with Switch Tune is a sculptural take on clean, functional design. The three round spotlights, placed symmetrically on a simple linear track, pure lines with maximum usability. The design suits both modern and classic spaces, from private homes to public interiors.

Each spotlight can rotate 350 degrees independently, allowing for dynamic and flexible lighting. Whether used in hallways, to highlight artwork, or as general room lighting, FOCUS L900 offers both function and visual impact. When angled straight down, the fixture appears seamlessly integrated with its base, forming a bold, cohesive expression.

This version features Switch Tune, which allows you to select either 2700K for a warm glow or 3000K for a neutral white during installation. This makes it easy to tailor the light to suit both your space and your preferred atmosphere.
