

AURA C3

Designed by Nital Patel

DESCRIPTION

Precision, multiplied. AURA C brings LIGHT-POINT's signature design language to the ceiling - clean lines, strict geometry, and a complete absence of visible fixings, for a surface-mounted presence that appears to simply belong. Each spot rotates freely around its own axis, directing light with quiet exactitude wherever the space demands.

Switch Tune selects between 2700K and 3000K before installation - warmth or clarity, decided once, delivered always. Available as C2 with two spots or C3 with three.

Effortless to mount. Impossible to overlook.
