EDGE LINEAR S1500

Designed by Nital Patel

LED	dimm.	IN DOOR	IP20	⏚	SWITCH TUNE

DESCRIPTION

Our EDGE LINEAR family with Switch Tune is the latest addition to the award-winning EDGE collection, designed by Nital Patel. The elegant silhouette is instantly recognisable, with a sharp profile that delivers balanced lighting. The wider edge provides strong downward light, while the slimmer edge casts a soft glow upward, offering both direct and indirect illumination.

This updated version features a smaller ceiling base for increased flexibility. It includes an extra ceiling bracket, allowing you to place the base where it suits best. The cables can be mounted freely across the ceiling, giving you creative freedom to customise the installation.

The new EDGE LINEAR model includes Switch Tune technology, letting you select either 2700K or 3000K during installation. It can, of course, also be connected to an external dimmer.
