

AURA W2

Designed by Ronni Gol

DESCRIPTION

Stripped of distraction, AURA speaks in the purest language of light. A wall lamp born from LIGHT-POINT's defining philosophy — clean lines married to technical precision — it exists where architecture ends and illumination begins. Beneath its composed exterior lies a new generation of low-voltage LED, refined and quietly powerful. Switch Tune grants a choice between 2700K and 3000K, set effortlessly at the installation base — warmer intimacy or cooler clarity, on your terms. Four sizes, five finishes. No excess. No compromise. AURA does not decorate a wall. It elevates it.
