## DESCRIPTION

The FOCUS 1 family with Switch Tune, designed by Ronni Gol, is a ceiling-mounted LED spotlight that combines elegance with exceptional flexibility. The round spotlight set within a square base reflects Ronni Gol's signature style of clean lines and practical functionality, making it a great match for both modern and classic interiors.

Its key feature is the combination of 350-degree rotation and the integrated Switch Tune function. During installation, you can select either 3000K for a crisp, daylight-like effect or 2700K for a softer, warmer glow. This allows you to customise both the direction and mood of the light to suit your space.

Made from aluminium, FOCUS 1 is ideal for accent lighting, such as highlighting artworks, but also performs well as general ceiling lighting. Whether used alone or in groups, it enhances the atmosphere and complements the room's design.
