General use

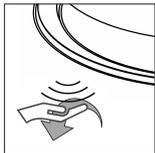

- The product is designed for indoor use only.
- The lamp gets hot after prolonged use, therefore, do not cover the product.

Cleaning instructions

- Before cleaning, ensure that the power supply is switched off.
- Wipe surface of lamp shade with a soft cloth.
- Do not use any abrasive cleaning tools such as steel wool, scouring sponges or stiff brushes.
- Never use strong cleaning agents such as white spirit, household glass cleaner or cellulose thinners.

Safety precautions

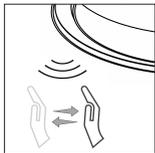

- The appliance should be installed, connected and tested by qualified electrician and in accordance with local regulations.
- Turn off the power supply before installation or maintenance of the lamp, and make sure that the cables are not squeezed or damaged by sharp edges during installation.
- The lamp should not be covered by insulation blankets or similar materials.

ON / OFF
swipe your hand under the sensor

DIMM*
hold your hand still under the sensor to
adjust the light level

2700K ↔ 6500K

TUNABLE WHITE

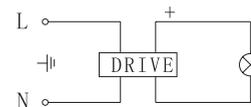

wave your hand under the sensor forth and
back in one slow movement to activate the
color temperature cycle. When you see your
preferred colour temperature, repeat the
hand wave motion under the sensor to set
the desired colour temperature.

*This product cannot be controlled by external trailing-edge dimmer

Installation instructions

- 1 Before installing, make sure the power supply is switched off.
- 2 Follow the steps as the figure for installation.
 - A Adjust the cable to the length you need. If there is some extra cable in the base, please cut it and re-connect the cable as the previous way.
 - B After drilling, pull out the wires.
 - C Fix the mounting bracket onto the ceiling with screws.
 - D Cut off excess wire.
 - E Connect the wires to the terminal block.
 - F Fix the fixture to the mounting bracket with screws.
 - G Fix the decorative plate to the fixture with the magnet.
- 3 After finishing every step, tighten the screws, have the fixture fixed, and then connect the power supply

NOTE: In case of any doubt, please
contact the qualified electrician.

International warranty

Your product has been thoroughly tested to meet high quality standards and is covered by a 7-year warranty from the date of the original retail purchase. The warranty applies to defects in materials and workmanship when the product is used as intended and in line with published LIGHT-POINT guidelines.

These guidelines include but are not limited to information contained in technical specifications, safety instructions and quick start guides. LIGHT-POINT is not responsible for damage arising from failure to follow instructions relating to the use of the product.
