STRIPE C/W 1500

Designed by Nital Patel

LED	dimm.	IN DOOR	IP20	⏚	SWITCH TUNE

DESCRIPTION

The STRIPE family sets a new benchmark in modern lighting design. Its clean, linear form allows for sculptural compositions on both ceilings and walls. By combining multiple units, you can create a unique visual expression. The adjustable light direction offers great flexibility and a wide range of creative possibilities.

This variant, STRIPE C/W, includes Switch Tune technology, allowing you to select either 3000K for a crisp daylight effect or 2700K for a softer, warmer light. The colour temperature is chosen during installation.

STRIPE C/W functions as both a ceiling and wall lamp, as indicated by the C/W naming. It is available in two sizes and three finishes: black, white, and brass. The fixture can be connected to an external dimmer.
